

SchoolBase Help

Welcome to the SchoolBase® Help website. The whole site is searchable, type what you are looking for into the search box above right.

The main SchoolBase® Help area (top menu to the left) has content on all SchoolBase® forms, and the processes you may be doing on SchoolBase® such as admissions.

SchoolBase® Report help is now available in the public area of the site. There are examples here on most of our 1200+ reports.

SchoolBase® Online and Time Planner help is available from the lozenge-shaped menu above.

Each form in SchoolBase® has a Help button. Wherever possible this will link directly to the relevant part of the Help system. If you wish to access this directly from your browser, you should use the address ' <http://www.schoolbasehelp.biz/> ' + the name of the form + '.html'.

You can log in to this site to have access to the Frequently Asked Questions, both to read articles and submit questions. Either use the same login as for Support on the main SchoolBase® site, or use the link bottom left to register your own account.

Please let us have comments about these pages and we will do our best to improve them to meet your needs. If you find any form without a specific link or you spot an error or omission, please E-Mail ideas@furlongsolutions.com .
